Peter Hendricks moved to approve the consent agenda, and Martha Burke seconded it. The motion passed unanimously.

5. DISCUSSION ITEM: *February 2025 Board of Directors Workshop*

Wally Morgus stated that Kat would send the questionnaire to everyone in the next few weeks. Still, he would like to encourage everyone to bring up anything they would like to add for consideration during the workshop in February. Grady Burnett said he is looking forward to the workshop and knows it will be well thought out. Jamie Canfield said he would like the board to consider creating a dedicated airport service.

6. DISCUSSION ITEM: *Items of interest to the members*

Grady Burnett mentioned that he is interested in the process of buying parts for the fleet. Carlos Tellez said they used to buy many parts from NAPA and local stores, but now they buy stuff from Amazon, too, because it saves them money. Neil Bradshaw said that Mountain Rides should establish a policy for buying local. He said that the city of Ketchum is willing to pay 10% (ten percent) more to buy the item locally, and Mountain Rides should establish a similar policy. Jerry Garcia mentioned that they shop online because sometimes they can't find a part they're looking for locally, so they purchase it online. Carlos Tellez said they're still buying a lot of stuff from NAPA and O'Reilly almost daily.

Grady Burnett said he wants to talk about the World Cup. Wally Morgus noted there's a meeting coming up with the City of Sun Valley, the City of Ketchum, law enforcement, and the streets department. Wally Morgus said he initiated contact for this meeting to get Jamie Canfield in contact with all the people he needs to be in contact with. Wally Morgus said he talked to Jade and that there will be a hired shuttle service from Sun Valley Company, and they would like to integrate the shuttle to complement the current Mountain Rides routes. Kristin Derrig asked if the shuttle service is geared toward spectators or athletes. Jamie Canfield said that it's geared more towards the athletes. He noted that some athletes will be in town before the World Cup, so, the shuttle service may be in place beforehand. Jamie Canfield stated that we will have an additional Bronze Route that goes from River

Run to Warm Springs to shuttle people who are parking at River Run and shuttle them to Warm Springs.

Grady Burnett asked if we're working with law enforcement to ensure that the buses can get through with the lane closures. Jamie Canfield said they are making sure their bus lanes are cleared. He said instead of turning left to go into Warm Springs Lodge, they would take a right on Picabo St and return to Warm Springs Rd. He said they will need police to ensure no one is parked in a spot that will make it hard for drivers to make a turn.

Jamie Canfield said that they might provide a dedicated ADA service. He said that no matter how full the buses get, it is on a first-come, first-served basis. He said having an ADA van would be great for anyone who has a disability and can't make it on the bus.

Neil Bradshaw asked for an update on the Bellevue building. Wally Morgus said the project is proceeding very smoothly. He said they are 50% of the way to getting done. He said they will have the building ready for occupancy in April, even though they didn't expect it to be done until May. He said half the work that still needs to be done is a lot of equipment installation inside the building, chargers, bus wash system, lifts, pulleys, and cables to support the electric bus maintenance efforts. They anticipate it will go along very quickly; it is just a matter of getting the equipment on hand and installing it. Wally Morgus said they are very happy with EKC's work and have accommodated Mountain Rides very well by keeping the facility open and operating during construction. Grady Burnett asked if they still have Destiree overseeing. Wally Morgus said yes, he is there almost daily. He said it was the best investment they made. Grady Burnett asked Wally Morgus if Destiree had gone to them to inform them of something that was done that was a shift in what the construction company was supposed to do. Wally Morgus said Destiree caught the elevation issues.

Kristin Derrig wanted to commend Jerry and his team on the new schedule rack card. She said it was great to include Instagram and Facebook on there. She mentioned it would be good to make a version of a poster or distribute it in places. Jerry Garcia said they have already been distributed to all their distribution centers. Kristin Derrig asked if they would stop printing schedules. Jamie Canfield said that if they do print them, they will print a much smaller number of schedules. Kristin said that they're getting closer to having a consistent schedule year-round and that having the rack card will make it much more manageable.

Tom Blanchard said he had talked to the drivers and that they are excited about the automatic washers for the buses.

7. ACTION ITEM: *Executive Session, per Idaho Code 74-206*

The board unanimously voted to go into the executive session.

8. ACTION ITEM: *Per Executive Session, if any*

There were none.

8. Reconvene/reopen public session:

<u>Progress on projects/initiatives:</u>	<div>We have been approached by Sun Valley Company to help train their drivers for their Class B CDLs. Overview

The Idaho Transportation Department – Public Transportation Office (ITD-PT), as a direct recipient of Federal Transit Administration (FTA) grant funding, is required to ensure compliance with all Federal and State requirements for funds administered through the ITD-PT office. As such, ITD-PT has implemented a Site Review Program. This program serves as a critical compliance and oversight tool, as well as allowing for technical assistance and the exchange of best practices between ITD-PT and public transportation providers.

This program is structured on a three-year basis, with technical assistance needs and/or previous site review findings being used to determine the frequency of visits (i.e. yearly, every two years, or every three years). ITD-PT Grants Officers perform the review, which takes place in three parts:

1. Desk Review

Performed prior to the site review, reviewing Grants Officer will request the required documentation as well as filled out questions in the site review packet. Subrecipients are provided 30 days to complete and return the site review packet. The packet and all documents will need to be submitted up to four weeks prior to the actual on-site visit.

2. Site Review

In person visit will consist of reviewing the provided responses to each of the Site Review Packet questions. ITD-PT will also review samples of files, inspect vehicles or facilities etc. upon request during the site visit.

3. Closeout Conference Call and Letter

Performed 30 days following in person site review. This will review final findings, recommendations, and needed corrections. A timeline for any needed corrections will be made at this time.

Administration and Management:

Equal Employment Opportunity (EEO)

Subrecipients may not discriminate against any employee or applicant for employment because of race, color, religion, national origin, sex, age, or physical or mental disability. Subrecipients must post in conspicuous and accessible places and make available to employees and applicants for employment notices setting forth an equal employment opportunity (EEO) policy.

FTA applicants, recipients, subrecipients, and contractors who do not meet the EEO Program threshold above are not required to submit an EEO Program to FTA but are still required to comply with all Equal Employment Opportunity statutes and regulations.

Subrecipients that employ between 50-99 transit-related employees and 1) request or receive capital or operating assistance in excess of \$1 million in the previous Federal fiscal year, or 2) request or receive planning assistance in excess of \$250,000 in the previous Federal fiscal year must prepare and maintain an abbreviated EEO Program.

An abbreviated EEO Program includes the Statement of Policy, dissemination plan, designation of personnel, assessment of employment practices, and a monitoring and reporting system. See FTA Circular 4704.1A Attachment 5 for an EEO Program Format Checklist. Agencies that meet the thresholds for an abbreviated program are not required to conduct a utilization analysis with goals and timetables or to submit the EEO Program to FTA every four years. Instead, these programs are reviewed during FTA's oversight reviews.

Review Documents can include:

- Number of employees working on/in the Federal Transit Administration (FTA)-funded program
- Organizational chart identifying EEO officer
- Designated employee and EEO officer job descriptions
- EEO complaint logs

For Full Program Only Documents:

- List of subrecipients that meet the threshold to develop an EEO program
- Sample documents used for internal dissemination of EEO program
